To,

The Immigration Officer
Consulate General of Israel in Bengaluru
Millenia Tower A, 8th Floor, 1 & 2 Murphy Road
Halasuru, Bengaluru, Karnataka 560008

Dear Sir/Madam,

My name is Pradyumna Pramod Belgaonkar, I am 23 years old and of Indian nationality with passport number P3885035. I have completed my Bachelor's Degree in Engineering Physics from Indian Institute of Technology, Delhi. I have secured admission to the M.A. program in Physics at the Hebrew University of Jerusalem, Israel. I'm writing this letter to apply for a student A2 visa for pursuing my higher academic studies in Israel. This MA Physics program lasts for 4 semesters (2 years) starting from October 2021.

I have been provided accommodation in the Lieberman Pickard Housing Complex at the Edmond J. Safra Campus (Givat Ram) for the duration of my stay in Israel. I have been awarded a financial scholarship by the Department of Physics. Thus, during my stay, I will finance myself through this scholarship. Additionally my parents are sponsoring the entire expenses for my stay in Israel. The Dormitory accommodation letter, scholarship letter, sponsorship letter from my parents and bank statements(self & parents) are attached herewith for reference. These documents prove that I have sufficient means to sustain myself financially.

Along with this letter, I have submitted all the relevant documents required to process my visa application. I hope my application will find a favorable response, and I look forward to hearing from you.

Pradyumna P Belgaonkar
