

To whom it may concern

I am applying for a visit visa to Lebanon to go spend some time with the Guiragossian family for whom I worked from 2002 to 2018 as a companion and caregiver for their late mother Mrs. Juliette Guiragossian especially after she suffered a stroke which affected part of her motor skills. I became part of the family and since my departure we have always remained in touch and miss each other dearly. I have very fond memories with them in Lebanon and have often been talking about visiting them once again to spend some time together.

I am currently retired and would like to take my vacation time in Lebanon especially that Ms. Silva Guiragossian and her siblings have invited me countless times.

I would appreciate it greatly if you could grant me a visa to be able to go back to Beirut on this visit trip.

Best wishes,

Ghundu Lhamo Bhutia
